

WHEN CONVERSATIONS AND THERAPY REACH THEIR LIMITS

Practice Weeks for Psychotherapists & Psychologists

Complementary integrative process work for people who are not making emotional progress despite ongoing talk therapy.

“

In psychotherapy, we sometimes spend years searching for the emotional origins of a client's suffering — and even through conversation, we do not always truly reach those layers.”

– Feedback from a psychotherapist with a doctoral degree

Author of the Professional Book **SOUL READING & AYURVEDIC PSYCHOLOGY**

Published work on emotional blockages,
trauma and deep psychological process work.

Who May Benefit Most From This Collaborative Format

- Psychotherapists
- Psychologists
- Trauma therapists
- Body-oriented psychotherapists
- Integrative therapeutic practices
- Holistic therapeutic centres

Collaboration & Practice Weeks

These practice weeks can be hosted directly within your practice or in collaborative therapeutic environments.

The intention is a trusted professional collaboration that complements existing therapeutic processes and may open meaningful new pathways for clients.

If you would be interested in an initial, non-binding conversation, I would be pleased to hear from you.
